

Ireland - Coillte Framework

FTC has recently been appointed by Coillte Teoranta to a framework agreement for the provision of environmental services. A total of four consultants have been appointed to the framework. The agreement is for 2 years duration and relates to environmental services work in areas such as:

-

Ecology

-

Archaeology

-

Geology and geotechnical engineering

-

Environmental science, including waste management

-

Wind energy projects

Coillte owns approximately 7% of the land bank in Ireland and is keen to investigate the potential for developing this land. Typical projects may include:

-

Providing services to assist Coillte in maintaining the FSC certification

-

Wind farm development in peat land

-

Property development in environmentally sensitive areas (such as HVCF)
